

# Enhancements to your natural gas system in Wayne

**InvestingInIllinois**  
A Nicor Gas system improvement initiative

Investing in Illinois: A Nicor Gas System Improvement Initiative is a multi-year initiative to modernize aging natural gas infrastructure. Nicor Gas, with its contractor NPL, will be modernizing the system that delivers natural gas safely and reliably to your neighborhood and we want to keep you informed of our work.

Beginning in October 2021, Nicor Gas' contractor, NPL, will be replacing a segment of 4-inch natural gas pipeline along Army Trail Road between Billy Burns Road and Keil Street. To ensure safe transportation conditions for residents during construction, select lanes and roads may be temporarily closed as the project progresses. Detour signage and other traffic control devices will be set up for residents prior to any street closures. Our goal is to minimize any traffic-flow disturbances and pedestrian inconveniences during construction and restoration of the area.

Construction is anticipated to conclude by November 2021. Nicor Gas customers will continue to receive natural gas service during the construction period and this project is not expected to cause service interruptions. If it is determined during the project that your service will be interrupted, you will be contacted directly by Nicor Gas or NPL. Nicor Gas is working closely with community leaders to reduce the impact this work will have on local roads.

## Restore Landscaping & Pavement

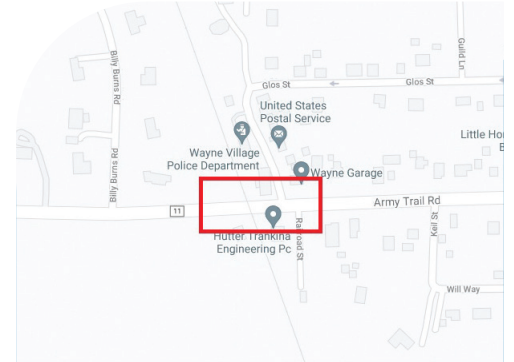

Nicor Gas, or one of its contractors, will restore landscaping and paving impacted by our construction to the condition in which we found it. Temporary restoration of some areas may be necessary until permanent restoration can be completed.

## For Your Information

These improvements are part of the Natural Gas Consumer, Safety & Reliability Act and costs are recovered under the Qualified Infrastructure Charge.

## Our Commitment

We take great care in implementing construction practices that limit disturbances and we understand your time is valuable. We appreciate your understanding and thank you for allowing us to continue to provide our customers with safe and reliable natural gas service.
