

Fill Up Your Natural Gas Vehicle at Home With

Phill by BRC FuelMaker enables owners to refill their Natural Gas Vehicles (NGV) at home from their existing natural gas supply.

The world's first appliance that lets you refuel your Natural Gas Vehicle indoors or outdoors from your household natural gas line. Filling up is as easy as 1-2-3. Just connect *Phill* to your car, press "Start", and relax! You can refuel overnight or whenever your vehicle is not in use!

BENEFITS:

- Convenient** *Phill* is capable of providing approximately 4 gasoline gallon equivalent (GGE) of compressed natural gas (CNG) over a 10 hour refueling cycle, right from the comfort of your own home.
- Quiet** *Phill* produces no more noise than an air conditioning unit.
- Economical** *Phill* uses no more electricity than an average small appliance.
- Flexible** *Phill* is easily installed inside or outside a garage.

GAS	
Maximum Discharge Pressure:	3600 psig @ 70°F
Inlet Pressure:	0.25 to 0.5 psig
Nominal Flow Rate (60 Hz):	0.8 SCFM @ 70°F 0.4 GGE
ELECTRICAL	
Electrical Supply:	240VAC, 60 Hz
Circuit Ampacity:	15 Amps
Full Load Amperage:	5 Amps
Average Power Consumption:	0.8 kWh
MECHANICAL	
Dimensions (H x W x D):	30" x 14" x 13"
Unit Weight / Shipping Weight:	95 lbs / 110 lbs
Noise Level:	45 dBA @ 15'
Ambient Temperature Rating:	-40°F to 115°F
