Enhancements

to your natural gas system in Evanston

INVESTING in ILLINOIS
A Nicor Gas System Improvement Initiative

Investing in Illinois: A Nicor Gas System Improvement Initiative is a multi-year initiative to modernize aging natural gas infrastructure. Nicor Gas will be modernizing the system that delivers natural gas safely and reliably to your neighborhood and we want to keep you informed of our work. We will begin this month by performing sewer inspections and identifying new meter locations. These steps are described below. In early July, we will begin the installation of new natural gas main in your neighborhood. We will send another newsletter prior to starting that work which will outline the steps involved.

Inspect Sewers

June 13, 2016

Sewer inspections are part of Nicor Gas' safety practices. If your sewer service is not accessible from the street, NPL, a Nicor Gas contractor, will schedule an appointment to inspect the sewer line from inside your property. There will be no interruption to your natural gas or sewer service during the inspection. Vital information from the inspection will be marked on lawns and sidewalks with spray paint.

Identify New Meter Location

June 13, 2016

This step requires us to enter your home. A representative from Nicor Gas or United Meters, our contractor, will contact you to locate your existing natural gas line and natural gas meter. An appointment may be scheduled or, if it appears that you are home while we are working in the neighborhood, we will knock on your door. We will identify where the new meter(s) will be placed outside of your property, if applicable, and locate your existing natural gas line. Any obstruction (drywall, furniture, enclosures) must be removed before we complete this step so we can access your natural gas piping.

For Your Safety

These improvements are part of the Natural Gas Consumer, Safety & Reliability Act and costs are recovered under the Qualified Infrastructure Charge. All Nicor Gas employees and contractors will have Nicor Gas or AGL Resources-issued ID cards and will present them if requested. **Nicor Gas contractors working on this project include NPL and United Meters.**

Our Commitment

We take great care in implementing construction practices that limit disturbances and we understand your time is valuable. We appreciate your understanding and thank you for allowing us to continue to provide you with safe and reliable natural gas service.

Areas Affected

2716 – 2752 Bennett Avenue
2000 – 2621 Central Street
2009 – 2122 Colfax Street
2222 – 2336 Grey Avenue
2407 & 2533 Hartrey Avenue
2204 – 2432 Noyes Street
2142 – 2515 Pioneer Road
