

# Enhancements to your natural gas system in Skokie

Nicor Gas is committed to the modernization of our aging infrastructure, prioritizing the safety and reliability of our natural gas distribution system. Nicor Gas with its contractor NPL, will be modernizing the system that delivers natural gas safely and reliably to your neighborhood and we want to keep you informed of our work. Highlighted below are the major steps involved in the project that we will soon be starting in your neighborhood.

## Inspect Sewers

Sewer inspections are part of Nicor Gas' safety practices. If your sewer service is not accessible from the street, NPL, a Nicor Gas contractor will schedule an appointment to inspect the sewer line from inside your property. There will be no interruption to your natural gas or sewer service during the inspection. Vital information from the inspection will be marked on lawns and sidewalks with spray paint.

## Install the Natural Gas Main

Nicor Gas' contractor, NPL, will install a new natural gas main in your neighborhood.

## Restore Landscaping & Pavement

We understand that you value the appearance of your property. Nicor Gas will restore landscaping and paving impacted by our construction to the condition in which we found it. Temporary restoration of some areas may be necessary until permanent restoration can be completed.

## For Your Safety

All Nicor Gas employees and contractors will have Nicor Gas, AGL Resources or Southern Company Gas-issued ID cards and will present them if requested. The Nicor Gas contractor working on this project is NPL.

## Our Commitment

We take great care in implementing construction practices that limit disturbances and we understand your time is valuable. We appreciate your understanding and thank you for allowing us to continue to provide you with safe and reliable natural gas service.
